Vision

Empowering students from rural areas through quality education and to imbibe human values in them.

Mission

To educate youth through quality education for holistic development by imparting value based and skill based education to transform students into competent responsible citizen

Principal's Desk

My dear students,

I would like to congratulate you for dividing to take admission in our K.K.Wagh ACS & CS College, Chandori. Our college is a value-based education center located in a beautiful and convenient location. I assure you on behalf of all my colleagues that we will not be disappointed in the future with your decision to reunite with the K K Wagh's Academic Family with hard work and co-operation, the college will shine brightly and your future will be bright of course, this has been proved by the brilliant performance of our alumni in various fields.

Discipline, quality and transparency are the friends of our work while implementing various academic and non-academic development schemes in the college. According to this I Think it is the need of the time in terms of nation building that the student should be secular than the need to inculcate a scientific approach in the context of the changing situation.

It is the priority of the college to make every effort to ensure that every student in the college is able to cope with the life threatening competition in the field of education. At present the prevalence of chauvinism and uniqueness among the students has become a matter of concern for the society. That is why discipline is the highest priority in the college. Which is starting from me to the last working unit at the college.

In addition daily teaching the college has always given priority to opportunities to the students to participate in National Service Sceme, indoor games and outdoor sports various competitions, Cultural programs, seminars, workshops, lectures by experts, as well as career development of students is given more attention through counselling and competitive examination guidance center training and placement department provides training and employment opportunity to the students.

Spacious building and playground, well equipped laboratories of science and computer science department, well-equipped library and student safety environment, pictures / natural surroundings, experienced and expert faculties, should give personal attention to students etc are the strengths of the college, which will delinitely benefit you, I wish you a bright future.
